AUTHORIZED DEALER

**FENDER HOOKS
SOLID-CORE FENDERS
REMOVABLE
CHAFE GEAR**

Megafend® fender hooks are the perfect way to protect a yacht's varnished, painted, or stainless hand rails. All Megafend fender hooks are handcrafted and designed for heavy use.

Megafend® solid core fenders are the perfect way to fend off damaging contact between your boat and docks, pilings or other boats while moored. Mega 30 fenders are perfectly sized to protect smaller boats.

Megafend® chafe gear wraps provide protection for dockline hawsers, line eyes, or where dock lines come in contact with rubrails. **Megafend® fluffy chafe gear** provides protection for those areas where the fender line or dock line can rub against paint or gelcoat. Each is designed for heavy use applications. They install easily and can be removed without having to rebraided the line end.

Fender Hooks

FH3BR

PR125BL

Megafend® fender hooks have a core structure of durable aluminum. The outer and inner surfaces are covered with premium-grade leather in black or natural finish for an outstanding look. The finest sheep's wool covers the inside of fender hook models designed for varnished or painted rails, protecting rail surface area. All Megafend fender hooks are handcrafted and designed for heavy use. Custom fabricated sizes are also available through your Megafend dealer.

Models available

- ⚓ FH3BL (black) • FH3BR (brown) for 75 mm (3") rails
- ⚓ FH4BL (black) • FH4BR (brown) for 100 mm (4") rails

- ⚓ PR150BL (black) • PR150BR (brown) for 38 mm (1-1/2") pipe rails

Boat Fenders

End View

Mega 30® solid core fenders are sized to protect smaller boats. Each has an outer covering of quality Sunbrella® marine fabric in black for an outstanding look while being performance engineered to withstand heavy use. Durable, high-quality pvc pipe runs through the fender's center, easily permitting standard 16 mm (5/8") line to be inserted for suspending the fender. Mega 30 boat fenders may be used vertically or horizontally. Custom fabricated fender sizes are also available through your Megafend dealer.

Model

- ⚓ Mega 30 • 50cm (20") length, 15cm (6") diameter

Removable Chafe Gear

SS18W

CG1025-4

Megafend® chafe gear installs easily without ties and all assure an aesthetically pleasing, tight uniform look. Megafend white **fluffy chafe gear** is constructed with soft quality sheepskin in a size that matches the line diameters readily used. Megafend **chafe gear wraps** are made with only premium ballistic nylon for excellent wearability in a range of standard sizes that match popular line sizes and lengths needed. Custom sizes are also available.

Models available

- ⚓ SS18B – Black acrylic fluffy 45 cm (18") length for 12–16 mm (1/2" or 5/8") line
Note: black "fluffy" only recommended for use on black line.
- ⚓ SS18W – White sheepskin fluffy 45 cm (18") length for 12–16 mm (1/2" or 5/8") line
